

## Attachment 3 – Set 2 QA ETJ0018 – January 19, 2010

### Responding to Appendix B

This legend is to be used for the vendor response column in Appendix B.

#### **Vendor Response:**

- Y. Current solution provides full functionality required. This functionality is considered part of “base functionality” pricing in cost worksheets.
- C1. Current solution provides functionality but some configuration is necessary (e.g., configuration of reports and user defined fields). This functionality must be considered part of base functionality pricing in cost worksheets and no additional customization costs will be required.
- C2. Current solution does not provide functionality required. Custom development is required and additional costs are required. **Vendors must provide an estimate of the number of hours to complete this type of customization in the “Comments Section” of this section of their proposal. Hours must include both the vendor’s hours, and anticipated ETF hours required (e.g. Vendor-10 hrs / ETF-2 hrs)**
